UNIVERSITY ENDOWMENTS.

By the Act of Congress approved July 3, 1862, 30,000 acres of land for each Senator and Representative in Congress in each State is donated for the "endowment, support and maintenance of at least one college, where the leading object shall be—without excluding other scientific and classical studies, and including military tactics—to teach such branches of learning as are related to agricultural and the mechanic arts, in such manner as the Legislature of the State may respectively prescribe in order to promote the liberal and practical education of two industrial classes in the several pursuits and professions of life." Of the 90,000 acres of land donated in this grant 87,612 25 acres have been approved to the State, leaving due to the State a balance of 2 287 75 acres. Only the interest of the funds derived from the sale of these lands is available for the support of the State University. On December 31, 1885, the principal (irreducible) of the University fund (90,000-acre grant) amounted to \$79,232 92 and the interest on available fund thereof to \$15,192 97.

An Act of Congress approved July 4, 1866, provides "that land equal in amount to seventy-two entire sections for the establishment and maintenance of a University in each State is hereby granted to Nevada." In the legislation relating to the admission of the public land States into the Union from the admission of Ohio in 1802, to the admission of Colorado in 1876 grants of two townships of public land, viz 48,080 acres each, for University purposes, are enumerated. These reservations in each case require a special act. This grant was not made to Nevada until July 4, 1868. Of the 48,080 acres of land donated in this grant the State has selected and received 39,025 90 acres, leaving due the State a balance of 7,654 10 acres. Only the interest of the fund derived from the sale of these lands is available for the support of the University. On December 31, 1885, the principal (irreducible) of the State University Land (48,080-acre grant) amounted to \$31,227 20, and the interest, or available fund thereof, to \$9,758 37.

From the foregoing two land grants the State of Nevada has on hand in cash or bonds (December 31, 1885,) for the support of her University the following sums:

90,000-acre grant (prin)	\$ 79,232 92
48,080-acre grant (prin)	31,227 20
	\$110,520 12
90,000-acre grant (int)	15,192 97
48,080-acre grant (int)	9,758 37
	\$135 471 34

The amount of money expended for University purposes from the time of its opening to the date (December 31, 1884,) of the last report of the Board of Regents was \$57,138 23, of which sum only \$17,700 20 was derived from the interest on sales of University lands, the remainder, \$39 378 08, having been appropriated by the State out of her General Fund.

The Congressional endowment of 90,000 acres is subject to certain conditions which make it incumbent upon the State to maintain the University. A failure to do so would involve not only the forfeiture of the land grant, but the return to the United States of all sums of money derived from the sale of lands (except interest.) The sum which would have to be thus returned amounted on December 31, 1885, to \$79,232 92. Among the other conditions of the 90,000-acre grant are "that no portion of said fund, nor the interest thereon, shall be applied directly or indirectly, under any pretense whatever, to the purchase, erection, preservation or repair of any building or buildings, except that a sum not exceeding ten per centum on the amount received under the provisions of the Act may be expended for the purchase of lands for sites, or experimental farms, whenever authorized by the Legislature."

Dr. Lincoln says Secretary Manning will not be able to resume his duties at the Treasury for six weeks at the earliest. In the meantime Assistant Secretary Fairchild will be Acting Secretary.

The House Committee on Pacific Railroads has adopted a substitute for Hensley's resolutions and appointing a subcommittee of five, headed by Chairman Throckmorton, to investigate Union Pacific.

THE NEVADA LOBBY.

How Cleveland, Wallace, Stoddard and the Boys are Pictured.

The Austin Revelle is down on the "lobby" boys, saying:

The curse of Nevada is not so much its Legislatures as the lobbies which always gather at Carson at each session. A legislator may go there full of intention to do what is right in all things and be perfectly fearless in the discharge of his duty. He may be fortified by pledges to his party and his constituents and he may be fully determined to carry out those instructions though the heavens fall. He may be as incorruptible as an angel and possess every attribute to make a good legislator. Yes he may possess all these qualifications and intentions and still make a failure of his record there.

To illustrate. We will suppose a Senator goes from Roop county who is in every particular what we have depicted above. The people of Roop are strongly anti-railroad we will suppose, but they want to issue bonds to build a \$100,000 Court House at Buffalo Springs. Of course our Senator is expected to get that bill through the mill if he does nothing else. In fact he must do it or his record will be looked upon as a dismal failure. The people of the rest of the State have no interest in that Court House appropriation and it is nobody's business if Roop wants to stand the extra tax. It looks easy enough and all our worthy Senator will have to do, as he and they think, will be to introduce a bill and it will go through and become a law in a jiffy.

But just here the lobby comes in. The lobby needs his vote to kill some bill introduced by an ambitious member to "cure the railroad." Our man is pledged to vote against all railroad bills on general principles and this particular "cure" bill is exactly in accordance with his views and also with those of the Roopites. But the lobby marks him for his own. A combination is made of say a dozen Senators who are disposed to save the dear railroad and they agree that if our Roop official will not vote against the cure bill they will allow them to let the "dear tax-burdened people" be burdened by any \$100,000 bond scheme.

Now what is to be done. He must get that bond bill passed and in order to do it he must get those dozen Senators. Yet they demand that he goes back on his anti-railroad pledges and stand before his constituents as having "fallen down to the sack" and he must be abused as badly as if he failed to get his own bill through. You see the box he is in and many a good man has been in just such a predicament and has "sweat blood" over it. But the day for a vote arrives and in desperation he votes against the railroad bill and gets his Court House bill through. Then what a howl is raised at "this traitor to the people," "this hireling of monopolies," "this wearer of collars," etc. Can he be blamed if he takes all he can get and let his constituents whistle?

Another instance. A certain public charitable institution was made a political issue for a number of campaigns. Figures were shown to prove how cheap it would be and how much more humane to keep the afflicted at home. Every legislator was pledged to right the wrong and save the money. Yet the bill was defeated twice after a most gallant fight upon the part of a few. Yet right after its second defeat the lobby said if a "jungle" was made probably the bill might pass. The business men assessed themselves, a purse was raised, the bill was again introduced and went through with flying colors. No tears were shed, no speeches made, nothing but a simple introduction and a quick passage through the regular stages until it came out a full-fledged law.

If such a thing were possible there are at least half a dozen men in Nevada who should be quarantined for sixty days every two years. This might not be possible. If not then it would be cheaper to hire them to make our laws and thus save \$55,000. They might be induced to take say \$5,000 each to do this work and the people would then save \$55,000. As it is they make most of the laws and as far as can be seen, get no pay for it. Such wonderful public spirit is liable to be too violent for the dear patriots and the Revelle tearfully urges that they be rewarded in some shape.

Mitchell, of Oregon, addressed the Senate Wednesday afternoon upon the Edmunds resolutions. He favored all save that which threatened to withhold confirmations in case the President refused to allow the Senate access to the papers deposited in the departments.

Governor S. T. Hauser, of Montana, President of the Helena and Wyckes Railroad, has completed arrangements with the Northern Pacific Railroad for the building of several branch roads for that system, which are to start from Helena.

The House Committee on Pacific Railroads has adopted a substitute for Hensley's resolutions and appointing a subcommittee of five, headed by Chairman Throckmorton, to investigate Union Pacific.

TEN YEARS HENCE.

How Retirements for Age will Remove War Veterans from the Active Army.

WASHINGTON, March 9.—The retirement of Col. C. C. Gilbert, Seventeenth Infantry, on the first of this month, is to be succeeded by that of Major-Gen. Pope a week from to-day, and during the year 1886 by the retirements of Surgeon-Gen. Robert Murray, Colonel Geo. L. Febiger, Pay Department; Gen. John Newton, Chief of Engineers, Col. S. D. Sturgis, Seventh Cavalry; Col. J. H. Potter, Twenty-fourth Infantry; Col. L. P. Bradley, Thirteenth; Col. John D. Wilkins, Fifth, Col. J. N. G. Whistler, Fifteenth, and by the retirement of several officers of less rank than that of Colonel.

These compulsory retirements under the law which removes from the active list officers who have reached the age of sixty-four, may be supplemented by voluntary retirements for other causes, or by deaths. In 1887 another notable list of retirements will be due, and altogether the reflection is provoked that the veterans who won a name for themselves in the war for the Union are rapidly going upon the shelf.

If we look forward ten years to the Spring of 1896, we find that then nearly all the now famous names will be gone from the active list. Lieutenant-General Sheridan will then have been retired a year, and every one of the present Major Generals and Brigadier Generals, except Adjutant-General Drum, Inspector-General Baird, Quartermaster-General Holcomb, Commissary-General Macfadyen, Surgeon-General Murray, Paymaster-General Rochester, Gen. Newton, Chief of Engineers, Gen. Benet, Chief of Ordnance, and Chief Signal Officer will be on the retired list. The same will be true of the five highest officers now in the Adjutant General's Department, the seven highest in the Quartermaster's, the six highest in the Subsistence, the eleven highest in the Pay Corps and the nine highest in the Engineers.

Of the present cavalry Colonels Grierson, Hatch, Sturgis, Brackett, Royall, Ows, Dudley, and Switzer will be retired and only Merritt will remain in active service, while he, of course, will long before have become a general officer. Of the present artillery Colonels all five—Ayers, Hamilton Best, Gibson, Fiddell will long before have been retired. Of the twenty-five infantry Colonels, the only ones not retired by the end of 1896 will be Ringer, Eighteenth, Wheaton, Second, Shafter, First, J. R. Brooke, Tenth; E. S. Otis, Twentieth, and H. C. Merriam.

Retirements for age will also have gone on in lower grades. In short ten years hence, considering the other casualties, as of death, retirement for disability, and so on, officers who have served in the war for the Union will constitute a minority in the active army, while those who have achieved fame as general officers of volunteers will be rare exceptions.—N. Y. Sun.

THE KNIGHTS OF LABOR IN 1888.

Their Entrance into Politics and Relation to the Democracy—A Word Along the Line.

From the Boston Herald.

The rapid growth of labor organizations and the strength of the Knights of Labor in Boston awakens a great deal of interest among the politicians, who look forward with misgivings to the direction of the political tide this year. Although the political tide is supposed to be boosted in the assemblies of Knights of Labor, it is claimed by members of the order that a "word passed along the line" will be sufficient to unite them almost to a man upon any candidate who are favorable to their interests. A movement has been started already, which if it continues, may make the Congressional contest in this city next November one of peculiar interest, and also test the strength of the Knights of Labor in controlling politics. It is reported that Mr. Richard F. Tobin, who for several years past has been a member of the Legislature from Ward 14, who is now Commander of the Grand Army of the Republic in this department of the order, and who is a moderate Republican in politics, is to be pushed to the front for the Congressional succession. Mr. Tobin is just strong enough as a Republican, it is thought, to secure the nomination of his party for Congress, and not too strong for many Democrats who admire his liberality in matters of legislation. Having always been a hard-headed toiler of the masses, it is thought the Knights, not as a body, but by individuals, "passing the word along the line" will give him their support.

What effect the movement, if pushed forward, will have on the Democratic party, is problematical. The Knights are strongest in that party, and just now there is a growing feeling among them that personal interests should be considered above party affairs. One of the Knights, who firmly believes that the order has come to stay, and has a prophetic vision that reaches into the political haze of 1888, expressed himself as follows, a day or two since: "My deductions from the condition of the political parties at present, the events now taking place in Congress, and the

solidifying of the laboring men for purposes of self-protection, are that the race for the Republican nomination for the Presidency has already begun, and Senator Edmunds, of Vermont, is in it, with Logan and Blaine as his competitors. Away down in the depths of every strong Democrat's mind is the feeling that President Cleveland has not been true to the party. Cleveland couldn't get a Democratic nomination next week if a convention was held, and unless he changes his course very much he won't get a re-nomination from that party in 1888. He will have a strong backing of Independents and Civil Service reformers, and there may be a new party with that element as a foundation. Doubtless he will have the nomination of the new party. * * * Before they get through Blaine and Logan will be at daggers drawn, and Edmunds may prove the horse to represent the Republican stable in the race of 1888. Wouldn't that be a lively contest—with Cleveland, Randall and Edmunds in the field? Randall would make a strong man in some of the doubtful States, and that's just what the Democrats want. Wait and see what time will develop."

WELL PAID OFFICERS.

To Whom Uncle Sam's Fattest Salaries Go.

Chicago Inter Ocean.

The best-paid officers of the Government are the President of the United States, the Ministers to England, France, Germany, and Russia, and the Clerk of the United States Supreme Court. The first receives \$50,000, the Ministers \$17,500, and the latter anywhere from \$15,000 to \$25,000 in the shape of fees. The next man on this list is General Sherman, who receives \$13,500 as retired pay of the General of the army, and after him comes Admiral Porter, whose salary is \$13,000. Next in order are the men who hold the second-class missions, Austria, Italy, Spain, Mexico, Brazil, China, etc., who get \$12,000, and the Collector of the port of New York, whose salary is a similar amount. General Sheridan receives \$11,000, and Chief Justice Waite \$10,000. The Associate Justices of the Supreme Court and third class foreign ministers are paid \$10,000 and Vice Admirals of the navy when they are at sea, which is seldom, get \$9,000. On shore duty they get \$8,000, and when on leave or waiting orders \$7,000. Rear Admirals get \$6,000, \$5,000, and \$4,000. There are quite a number of public servants who receive salaries of \$8,000, including the members of the Cabinet, the President of the Senate, the Speaker of the House of Representatives, the Collectors of Customs at Philadelphia and Boston, the Naval Officer and Assistant Treasurer at New York, and the attorney before the Court of Alabama Claims, although the latter is not paid by the Government, but out of the Geneva award. The fourth-class foreign minister receives \$7,500, which is the pay of the Major Generals of the army. The Collectors of Customs at Baltimore, Chicago, New Orleans and San Francisco are paid \$7,000. The Circuit Judges of the United States, the Superintendent of the Coast Survey, the Commissioner of Internal Revenue, the Treasurer of the United States, the Consul Generals at Paris, London, Rio de Janeiro, Liverpool, and Havana, and some other Consular offices receive \$6,000, and the Comptroller of the Currency gets the same amount, \$1,000 of which is paid him for looking after the affairs of the defunct Freedman's Bank. Some of the Consular officers make from five to eight thousand dollars in fees, but they are very few. The entire number of public servants who are paid more than \$6,000 is less than one hundred.

A Proposed Labor Organization.

The Eureka Sentinel says.

There has been some talk in town of late of forming what is to be known as the American Labor Association. The matter is being canvassed, in order to feel the pulse, so to speak, of the working element of the community. If it is deemed wise and advantageous to form such an association there is no doubt but that it will receive considerable strength, numerically. The object is to get 20 representative workmen of the community to serve as charter members of the organization, to adopt the declaration of principles of the Knights of Labor, and afterwards receive as active members all local friends of the laboring cause. After the original association is formed then it is proposed to join bodily the Knights of Labor. As yet there is a conflict of opinion among cool-headed laboring men and their friends as to the expediency of such an organization during the present depressed state of affairs. They cannot see wherein it is going to benefit the community or themselves. Unless there can be discerned some tangible object in forming the association it is probable the matter will be allowed to rest for the present.

The Eureka Sentinel says.

The citizens of Reno are again agitating the matter of establishing reduction works at that town. Would it not be well for said citizens to agitate the subject of working some of the mines of the locality, and develop sufficient ore to warrant the establishment and success of the desired reduction works?

A Long-Winded Congress.

Mr. Randall said recently to one of his Democratic colleagues: "If we do not adjourn by June 15, we shall lose the next House." Congress will not adjourn by June 15. It may be gravely doubted whether there will be an adjournment by July 15, and many of the most experienced Congressmen fix August as the date. The appropriation bills are not well advanced. Within the last two weeks the House committees have made better progress, but there is a disposition to prolong the debates. It is not probable that a political debate can be avoided on the Post-office Appropriation bill. The policy of the Postmaster General with respect to the subsidy appropriation of the last Congress is to be made the text for an assault upon Mr. Vilas, and for a general discussion of administrative policy. And a debate once begun in the House on this subject will probably be indefinitely prolonged. The desire of Representatives to attend the Congressional Nominating Conventions in their districts will be the most active influence in securing a final adjournment.

Commissioner Sparks, in his estimates to Congress, reduces the salary of the Surveyor General of Nevada from \$2,500 to \$2,000, and the appropriations for clerks in his office from \$3,000 to \$2,500.

Nervous Debilitated Men.

You are allowed a free trial of thirty days of the use of Dr. Dye's Celebrated Voltaic Belt with Electric Suspensory Appliances, for the speedy relief and permanent cure of Nervous Debility, loss of Vitality, Manhood, and all kindred troubles. TOWN AND COUNTY.

BREVITIES

Big train again yesterday morning
Reno will soon light up a dozen street lamps
Dick Thomas was down from Franktown yesterday
Mrs J N Jaquish died at Cedarville on the 21st
A new lamp post is being put up at Hymers corner
C Novacovich leaves for Aurora tomorrow morning.
Reno has seven two-bit restaurants and eating houses
Senator Stewart arrived yesterday morning and continued on to Carson
The new laundry building will be 31x 60 and 14 feet high in the clear. Work is progressing favorably
A new strike is reported half a mile from Steamboat. It is said to be richer than anything ever found in the Harris mine

It is reported that Dr J A Bean, of Battle Mountain has sold a one third interest in the Pittsburgh mine, Lewis, for \$15,000

Senator Jones came up from San Francisco yesterday morning, and proceeded to Gold Hill to see his aged mother before returning to Washington.

L A Blakeslee of the Humboldt House, was in town yesterday on a visit to his daughter Miss Carrie, who is a pupil at Bishop Whitakers School for Girls

The Reno hand fire engine is for sale. She is in good shape and would be an excellent machine for Lovelock, Winnemucca or some place where they have no steamer

Captain Harry Johns, who was so severely injured by a small cave on the 1700 level of the Crown Point mine a few weeks ago, has sufficiently recovered to get out on the street

An exchange advertises—Wanted a boy for bottling—Brookins is not in the boy bottling business, but he is selling stationery, blank books and sheet music lower than ever

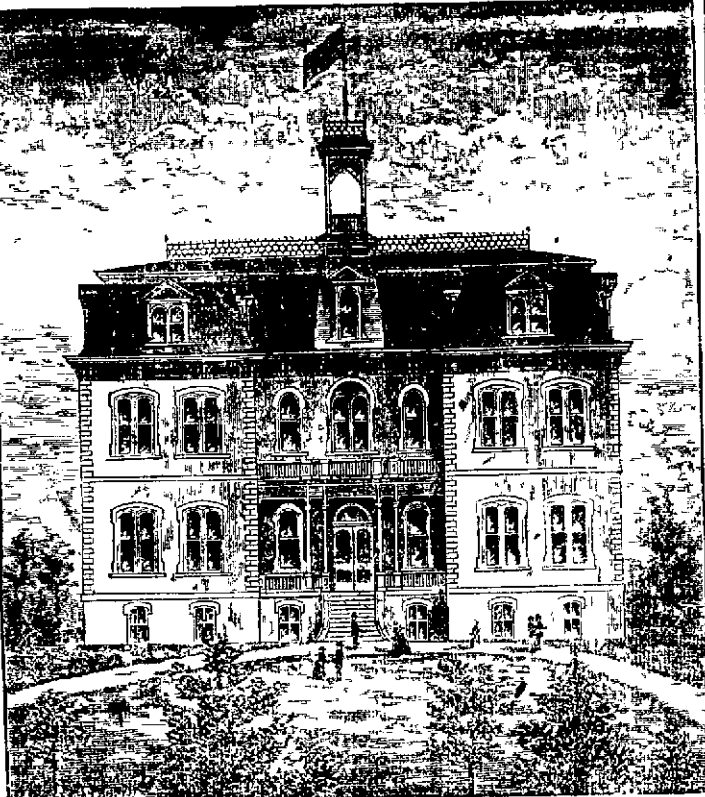

REDUCTION IN PRICES—The Truckee Republican says

The steam laundry has issued a new and reduced scale of prices for laundry work. Family washing has been cut down half, and important reductions made in other branches so that in the future there need be no complaint about high prices. It is being got down to a system and will be able to do work at less than even a Chinaman could do it. Speaking of Chinese laundries it is a well known fact that even if a steam laundry charged double Chinese prices it would be cheaper to the patrons. A Chinaman will ruin any garment entrusted to him. You must wear his vile opium spittle next your skin and around your neck, and every article that comes from the hand of a moon eye should be fumigated before using. With the compounds they use and the tearing of clothes to pieces, every one would find it cheaper to pay the steam laundry more money for washing, as they will find it is very expensive to buy new garments that are destroyed only by Chinese washing. The new lists are out, and if they are not low enough, will probably be reduced again

LOGAN COMING—Senator Logan told a Californian Tuesday that he intended to visit California this Summer during the encampment that will be held there. Logan is eager to get the enthusiastic support from the Pacific Coast that Blaine received at the last convention

THE INYO MARDIF—Attention continues to be attracted to the remarkable quality, as well as quantity, of the Inyo marble, and we are persuaded that no finer material exists for the construction of beautiful monuments from the most simple to the most elaborate

WATER TO BE OFF—Superintendent Evans says the water will be turned off on Monday, Tuesday and Wednesday. He is putting a six-inch pipe in place of a four inch one in Western Addition. It will replace 2,000 feet of old pipe

THE UNIVERSITY OF NEVADA AT RENO

BAS BALL CHIEFS—The Express says Sunday in Reno is sort of a gala day, same as in Spanish countries. Instead of the regular bull fight. However, they have the baseball games in the afternoon, there being two fully organized clubs, the Dudes and the Typos. The Dudes dress in red, white and blue and the Typos in garnet, and form quite a conspicuous feature as they perambulate the streets. Last night the battle ground west of the public school house. Last Sunday the Dudes got severely beaten by the Typos. There were about 200 spectators including ladies and gentlemen in about a dozen buggies, and much interest was manifested. One little chap gazing wonderingly on at the gay looking actors rushing back and forth, remarked: "Papa, which of em is the clown?" "Clown ha, ha, that's not a bit, sonny, couldn't tell you exactly. Just then one of the players, a tall, thin fellow, looked up at the crowd and said: "I'm troubled over a small embankment back over here." "There he is!" shouted the little fellow in great glee, "that's the clown." No no my son," quietly responded his paternal ancestor, "that's one of the tumblers." Croquet is a popular Sunday game among the Reno ladies—also croquet

UNIVERSITY STUDENTS—The University people are busy sending Registers to all parts of the State, do up all they can to notify the people in time as to the course of instruction and date of opening. We understand if students who intend asking admission will send in their names promptly, efforts will be made to hold examinations in several different localities throughout the State in order to let every one have a trial at as little expense as possible. Many will save a years work by being on hand at the inaugural term as the probabilities are that in many instances students will be fully up in most of the branches belonging to a certain years work, but behind a little in two or three. The inaugural term gives them a chance to review, and also bring up those other studies so as to start square with the next school year

OFFICIALLY RETRACTED—The Carson Appeal says: "The Appeal takes back everything it has said about the good people of Reno not being willing to stand in and help us celebrate. Parties who have visited the town say that the people are overflowing with patriotism for the Republic and good will for Carson. They have hit us so hard in the past that we presume that a feeling akin to pity moves the heart of Reno and she is willing to extend the hand of good fellowship and tell us that the world is at peace. This enlightened and progressive burg cannot have failed to bear in grateful remembrance the influx of Carson's chivalry and might last year, and Reno ought always to feel grateful for the assistance Carson gave to the celebration (barring the poem) and stand in long and loud this year."

A POLITICIAN'S MISDEED—The article with the above title published in the Silver State, of Wednesday, and copied by the Reno Gazette of last evening, is not true in many of its particulars as those know who published it. The editor of the Journal has no desire to conceal the truth about it. He did have a trip pass from Reno to Wells and from Wells to Reno. While en route at the Gem when the note to Wells, being still good from Reno to Wells, dropped out of his pocket and fell to the floor, was picked up by a spectator and handed to the proprietor who returned it to Mr. Fleming the next morning. The editor has no annual pass, he did not abuse the railroad, he was not drunk, and with these exceptions the above article is nearly all right. We would sooner travel on a pass than pay the present low rates and when we do we do no more than the rest of the world does. The editor of the Silver State does what they nearly all do. It takes transportation from railroads just the same as it does butter from the farmer, meat from the butcher, groceries from the merchant, cigars from the cigar dealer, etc., in exchange for advertising or subscription, and will continue to do so whenever it gets a chance

THE DYNAMO MOVIE POWER—The Virginia Chronicle says: The project of the scheme for transmitting the motive power of the Truckee river to the Comstock through the agency of electricity, with file articles of incorporation early next April. The trustees are now estimating the cost of building a 100 stamp mill, to be propelled by power transmitted through dynamos

They have been in correspondence with the Sutter Tunnel Company with a view of obtaining a lease of the motive power of the water flowing from the tunnel but the company refused to grant that privilege on the ground that they intend to utilize the water to drive a series of five 40 stamp mills which they propose to erect in the flat between the mouth of the tunnel and the Carson river for the purpose of crushing the vast deposit of low grade ore outcropping the tunnel, and known as the Brunswick ledge

WAS HE DASHED TO DEATH?—A Verdi dispatch of the 23d conveys the following

Joseph Perreault who bought a ticket and boarded the passenger train here for Truckee on Sunday night has mysteriously disappeared. He was inessed from the train shortly after leaving Camp 21. His hat was seen on one of the cut steps. It is supposed that he must have fallen from the train while passing through a bridge. A searching party engaged the river to day in effort to find the missing man. The bridge through which he is supposed to have fallen bears blood stains, while the rocks below the bridge show blood marks to within a few feet of the river's edge. Several of his friends recognize the hat found, and say it is the one Perreault wore on leaving here. It shows a cut in front, as though he had been struck in the head. It is stated that he did not reach Truckee, as a message from that place says he is not there

TO THE LADIES OF RENO—BUSINESS CHANGE—Miss Sadie Sykes tenders her best thanks to the ladies of Reno and vicinity for the patronage and support they have given her for the past three years, and desires to inform them that she has this day disposed of her business to Mrs. Hessel, for whom she solicits a continuance of their kind patronage and support
Referring to the above Mrs. Hessel respectfully solicits a continuance of the patronage so liberally accorded to her predecessor, and assures the ladies of Reno and vicinity that her untiring efforts will be put forth to keep the business up to its former high standard. Her knowledge of the business, combined with the services of a first class assistant, will insure perfect satisfaction at all times
Reno, Nev March 1, 1886.

Advice to Mothers.
Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 5 cents a bottle Feb 21-66-1yr

SEALED PROPOSALS.

BOARD OF COUNTY COMMISSIONERS of Washoe County, Nevada, March 1, 1886.
Sealed proposals will be received by the Board of County Commissioners of Washoe County, Nevada, up to 10 o'clock A. M. on the first Monday in April, 1886, for the care and sustenance of the indigent sick and poor of Washoe County. The person receiving the contract to have the use of the County Poor farm and premises, where county wards are required to be kept. The contract to be for the care of eight persons or less, and for a given rate per week for each person provided for in excess of eight.

Similar proposals will be received at the same time for the services of a County Physician, to attend the indigent poor of Washoe County which shall include attendance at the County Hospital, County Jail, and elsewhere in the county when required. Post Mortem examinations and examining insane persons. The physician contracting to furnish his own expenses. If drugs and medicines required, the physician's necessary traveling expenses which related to visit indigent poor residing more than one mile from Reno, will be paid by the county.

Also bids will be received for the burial of the indigent dead of Washoe County for one year.

Also for doing all county advertising and printing, other than blanks for the period of one year.

All contracts to commence on the first Monday in April, 1886, and end on the first Monday in April, 1887.

The Board Reserve the right to reject any and all bids.

By order of the Board
